- **Write to the Bank:** DVD course led by New York Times bestselling author, Dan Miller, about finding time and opportunities to write and structure writing projects to be completed and marketed well.
- **Learn Scrivener Fast:** Online course dedicated to using scrivener to publish writing and grow a writing business.

### TESTIMONIALS / SELECTION OF REVIEWS

- Let me first say that I'm not a book reader. I find it hard to find the time to sit down and read a book cover to cover, but when *Confessions of a Terrible Husband: Lessons Learned from a Lumpy Couch* was recommended to me I thought I would give it a try. Once I started on the first page I couldn't put it down. What an easy read and too boot, I thought I was reading about my own life. Kind of scary! I was able to pick up some good tips that I'm going to try to fix. I would recommend this book to anyone with a young growing family. In fact, I'll most likely read it again a few more times until the tips stick and I'm on the path to a better and stronger marriage. – A. Katz
- Nick has the uncanny ability to piece together what I am trying to say and make it a coherent piece of content that sounds exactly like I wrote it, but without all the pain and effort of me writing it myself! He understands market positioning and how to draft a book that can help you build authority, create opportunities, and connect with the right audience. I strongly recommend working with Nick. – J. Freeman
